## Anti-Harm Knob Trim

### Corbin Russwin Introduces Anti-Harm Knob Trim for ML2000 Mortise Lock

Corbin Russwin is pleased to introduce the anti-harm knob (HSS) trim for use with the ML2000 mortise lock.

The anti-harm knob is designed for safety and security by eliminating catch points with a tapered knob recessed into the rose, a tapered thumbturn (for mortise lock thumbturn functions) with Torx® pin security screws, tapered cylinder collars and concealed mounting screws. Available as sectional trim, the anti-harm knob features recessed finger holes for a better grip and the reliability of the ML2000 ANSI/BHMA grade 1 mortise lock.

**Features:**

- Recessed finger holes for a better grip
- Tapered knob recessed into the rose
- Concealed mounting screws for added security
- Tapered anti-harm thumbturn standard for all ML2000 thumbturn functions
- Tapered cylinder collar standard for all for ML2000 cylinder functions
- Available in 606, 626 and 626C finishes only
- Available in 1-3/4 - 4" door thicknesses

**How to Order**

**Anti-Harm Knob (HSS) Trim – HSS Knob x HSS Knob**

Quantity	Series/ Function	Trim	Finish	Hand
6	ML2032	HSS	626	RH
