

# The Innovation Experience

Bridging the gap between imagination and reality

**ASSA ABLOY**

The global leader in  
door opening solutions

# The Innovation Experience

The quest to achieve perfection in doorway design and functionality has persisted ever since humans first constructed shelters. This pursuit to build a better opening has reached a modern day zenith, driven by innovations from ASSA ABLOY.

Doorway security, safety, sustainability, ingenuity and design now reach levels that, until recently, were beyond imagination. Enter the ASSA ABLOY Innovation Experience. The transformation of an industry lies within.

Learn more about all of our Innovation Experiences:

---

## Innovation Showroom

The ASSA ABLOY Innovation Showroom located within the Americas Division headquarters in New Haven, Connecticut is more than a display of the company's latest products; within these walls lay technology and design innovations that will drive the direction of the door and hardware industry for years to come. Full-size openings enable visitors to experience the true power of each solution. Contact your local Door Security Solutions sales representative to learn more about our Red Carpet Tour program:

- All expenses paid
- Local factory tours
- Exclusive meetings with ASSA ABLOY management
- Attendees eligible for 1 AIA/CES HSW Learning Unit and .1 CSI CEN HSW Continuing Education Unit

---

## Mobile Innovation Showroom

Prepare for innovation in the fast lane. The ASSA ABLOY Mobile Innovation Showroom is a compact, traveling version of the larger display found in the New Haven headquarters. The mobile showroom features fully-functioning models of openings that demonstrate the capabilities of numerous security, life-safety, sustainability and aesthetic solutions developed by ASSA ABLOY. The innovation road tour is traveling the country. Visit [www.assaabloydss.com](http://www.assaabloydss.com) for a nation-wide schedule.

## RV Showrooms

Journey into the world of Good Design and follow the path down the Security Continuum in ASSA ABLOY's tandem of Innovation RVs. The Decorative Openings RV showcases ASSA ABLOY's collection of decorative openings that are exploring new avenues in door and hardware design. The Intelligent Openings RV presents an overview of access control technologies ranging from simple mechanical locks to the latest highly intelligent locking devices. Contact your local Door Security Solutions sales representative to find out when the RVs will be in your area.

*Experience the latest technologies  
in the door and hardware industry:*

## Life-safety

Careful selection of doors and hardware can help facilities protect against extreme conditions and everyday hazards. Discover how you can:

- Improve emergency egress with hardware devices that emit audible and visual alerts to guide occupants directly to building exits
  - Offer protection against devastating storms with hurricane and tornado-resistant doorways that are necessary building components in many areas
  - Enhance your facility's cleanliness through MicroShield® antimicrobial coating for doors and hardware
- 

## Security Continuum

Advancements in security technology give end users a full range of options to secure their facility. This enables more precise selection of locking products to protect the specific assets behind each opening. Discover the features and benefits of each technology including:

- Mechanical locks and keys
- Keypad locks for home and office
- Offline locks and eCylinders with audit trail functions
- Locks that connect to an IP network through WiFi and Ethernet connections
- Open-architecture Integrated Wiegand locks and strikes that operate off third-party software
- Campus security locks in offline, IP and WiFi configurations
- Intelligent doorway components—lock, power operator, electric strike, credential reader, switch—that connect, communicate and continuously relay their status to a security network

## Decorative Openings

Door openings, often just as beautiful as they are functional, can be a crucial part of a building's overall design concept. Explore a full range of doors, frames and hardware in many styles and finishes to create high-performance openings that complement your design vision.

---

## Sustainable Building Solutions

Complying with LEED and other green building standards requires products that help meet material and resource thresholds and building envelope thermal performance criteria. Learn how our doorways can contribute to the following green construction challenges:

- Energy efficiency and thermal performance
  - Recycled and rapidly renewable building materials
  - Low VOC emissions
  - Sound transmission control
- 

## Services & Training

We have a nationwide team of sales representatives, specification consultants, and technical experts that provide assistance throughout all phases of a project. Services include:

- Product research and selection
- Specification writing
- Hardware schedule preparations
- Architectural training and education
- Site surveys and audits
- Key control management
- ADA compliance assistance
- Code compliance consulting

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.
