

Ceco Door Expands High Definition Embossed Panel Door Offering

Milan, TN – March 5, 2010, 2009 – Ceco Door is pleased to announce the addition of a 3'0" x 8'0" door to the High Definition One Panel and Two Panel product lines.

Ceco Door is also pleased to announce the addition of polystyrene cores to the High Definition One Panel and Two Panel product line. The polystyrene core will be the standard core for all of the High Definition One Panel and Two Panel doors. Ceco Door will continue to offer the polyurethane core as an option.

"We feel these One Panel and Two Panel doors are designed and constructed with the ultimate in beauty and durability," says Dan Glover, Project Manager for the Door Group. "These doors provide a unique opportunity for our distributors to strengthen their position in the Marketplace."
