YALE Affinity™ Offers RFID Access Control for Multi-Family Applications

Lenoir City, TN – Yale® brings contactless identification electronic locking to the multi-family housing market with the new Affinity™ (RFID) Smart Card Lock. Designed with ease of use and residential security in mind, Affinity combines the latest Radio Frequency Identification technology with a flexible electronic locking system—perfect for multi-family, apartment or condominium housing.

Combined with VISION by VingCard® software, Affinity is a full-featured, functionally-rich access control system with the power, flexibility and ease of use to meet the operating needs of any multi-family property.

Yale Affinity eliminates issues commonly associated with mechanical masterkeyed locks. Smart card technology enables easy reprogramming to erase or add users in seconds; right at the lock. The latest in (RFID) technology provides an improved security platform for facility administration

as well as users. Unique ID protection technology prevents cloning of cards eliminating the possibility of unauthorized duplication of credentials.

Affinity Smart Card Locks are part of a stream of new ASSA ABLOY products moving from traditional mechanical locks to being extensions of access control systems in facilities.
