ASSA ABLOY Door Security Solutions Increases Offering of Windstorm Products

The Florida Building Commission has granted windstorm certification to a large group of door and hardware products from ASSA ABLOY Door Security Solutions companies CECO, CORBIN RUSSWIN, CURRIES, FOLGER ADAM EDC, McKINNEY, SARGENT, SECURITRON and YALE.

All products have passed testing and can be used together in any combination to form a fully-compliant doorway for openings with a single door and designated design pressure of +/- 60 psf. The list of approved products includes:

Doors:

- CECO: Legion (polystyrene), Medallion (steel stiffened), Imperial (polyurethane), Regent (honeycomb), Versadoor (embossed)
- CURRIES: 607 (polystyrene), 707 (polystyrene), 707 (polystyrene embossed panel), 727 (mineral core-temperature rise), 747 (steel stiffened)

Hinges:

- McKINNEY: TA 2714 standard weight or heavy weight, TA 2714 QC standard weight electric hinge, MCK 14-HD continuous hinge

Cylindrical Locks:

- CORBIN RUSSWIN: CL 3300, CL33800, CL 3600, CL 3900
- SARGENT: 7 Line, 10 Line, 11 Line, 10G77
- YALE: 5300, 5300LN, 5400, 5400LN, eBoss

Mortise Locks:

- CORBIN RUSSWIN: ML2000, M20800
- SARGENT: 8200, Profile Series
- YALE: 8800, eBoss

Rim Exit Devices:

- CORBIN RUSSWIN: ED5200 SA x M107 x E8800, ED5200 SA x M107 x 9800
- SARGENT: WS8800, HC 8800
- YALE: 7150 (F)WS, 7250 M(F)WS, 2150 (F)WS

Mortise Exit Device:

- SARGENT: WS 8900

Auxiliary Devices:

- FOLGER ADAM: ASSW 105A Position Switch
- SECURITRON: Cylindrical UNL Unlatch, EPT and EPTL Power Transfer Unit, Mortise UNL Unlatch

The latest product listing is in addition to a group of doors and hardware already approved for windstorm applications. For more information, visit www.assaabloydss.com.
