

Access 800® Series

M99 Gasket Kit

GASKETS & ABS CONDUIT NOW STANDARD WITH ACCESS 800® SERIES LOCKSET

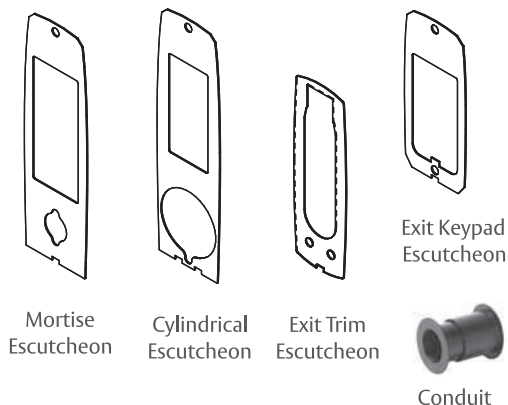

Please be advised that all Access 800® Series orders will no longer accept the M99 quick code option because weatherseal gasketing kits are now included standard with the product. The M99 quick code will still be utilized for other EM products (i.e. Electrified Trim 9900 Series).

For existing Access 800® installations, gaskets may be ordered by specifying appropriate part numbers below.

Weatherseal Gasketing Kit

- Includes rubber gasket(s) and durable ABS conduit
- Gaskets provide sealing between escutcheons and door for exterior applications
- Conduit provides weather protection inside of door
- Gasketing and conduit for use on non-fire rated exterior applications only
- To order separately, specify kit part number

Access 800® Product	Kit Part Number
ML20800 Series Mortise Lock	794F929
CL33800 Series Cylindrical Lock	794F919
9800/9M800 Series Exit Trim	794F909
