

Disposable Temporary Small Format Interchangeable Core

Continuing the effort to provide our customers with new ways to manage construction keying, Corbin Russwin is expanding its temporary disposable core offering to include a Small Format Interchangeable Core cylinder (SFIC).

Just as with its current large format equivalent, the new Disposable SFIC cylinder allows the user a cost-efficient method of securing doors during the construction phase of a building project until permanent interchangeable cores are installed. No keys are required and they can simply be thrown away after use; no worries about returns or credits.

Availability

Orders for the Disposable SFIC cylinder are being accepted now and are only available for 6- and 7-pin small format interchangeable core cylinders in CL3300, CL3600, CL3900, CK4200 and UT5200 Cylindrical Locks, and ED8000 NG/PRG lever trims. Disposable SFIC is not available for Pyramid™ cylinders.

Please note that Corbin Russwin does not provide permanently keyed Small Footprint Interchangeable Core cylinders. Levers or knobs that accept SFIC cylinders are available and must be specified with the M08 or M10 Quick Code when ordering.

How To Order

Disposable SFIC cylinders are made up of two pieces consisting of a Plug Support and Plug, and are sold in 10-packs when ordered separately.

- When ordering with a lockset, specify Quick Code CTSD
 - ♦ Example: CL3355 x NZD x 626 x M08 x CTSD
- When ordering separately, specify Part Number 707F299

Pricing

There is no charge when ordered with a lockset. When ordering separately, price is \$25.00 per 10-pack.
