Small Format Interchangeable Core (SFIC)  
Mortise and Rim Cylinder Housings

## Corbin Russwin Introduces Small Format Interchangeable Core [SFIC] Housings

The new SFIC housing is designed to work with both Corbin Russwin mortise and exit trim hardware and will accept all SFIC cores. The housing is made to Corbin Russwin specifications using Corbin Russwin mortise cams and exit trim cylinder tail pieces ensuring all functions work flawlessly.

SFIC housings are made at the Corbin Russwin factory, ensuring that the hardware functions properly when used with SFIC cores provided by others.

### Features and Benefits:

- SFIC housings are made from solid brass and incorporate a cylinder scalp to match any architectural finish.
- Small Format Interchangeable Core [SFIC] lock systems are ideal for rekeying locks quickly and easily versus standard fixed cores.
- Corbin Russwin offers SFIC prepped knobs and levers for cylindrical locks and SFIC housings for all Mortise locks and Exit devices.
- SFIC cylinder housings are manufactured with the same precision as Corbin Russwin LFIC cylinders.
- All Corbin Russwin hardware is now compatible with all SFIC cores
