

New Impact Resistant End Cap for Corbin Russwin ED4000 & ED5000 Series

Corbin Russwin is pleased to introduce the new impact resistant end cap for the ED4000 and ED5000 series exit devices. The new design incorporates a heavy-duty end clamp and an end cap with three screws strategically located to resist abuse and maintain functionality. Simple to install and easy to retrofit, the impact resistant end cap reduces maintenance and maintains the aesthetics of both the ED4000 and ED5000 series. A retrofit kit is also available for existing exit devices. The kit contains an end clamp, end cap and (3) end cap screws.

ADVANTAGES

- Impact resistant
- 10 times stronger
- Longevity of new end cap reduces maintenance
- Retrofits easily to existing exit devices

New End Cap

AVAILABILITY

The new end cap design will be incorporated into the ED4000 and ED5000 series as a running change. During the week of September 16, 2002, shipments in 611, 612 and 613 finishes will begin including the new end cap as a standard component, with the change being incorporated into the remaining devices by October 1. Warehouse orders for the end cap retrofit kit may be placed beginning October 14, 2002.
