

Pyramid[®] Security

July 21, 2003

Pyramid cylinders are now available with Security protection. These new security cylinders offer utility patented protection through the year 2018.

Pyramid Security (PS) cylinders will be constructed with nickel silver bottom pins and brass top, master and buildup pins, not the stainless steel pins used in the UL-437 Listed High Security version. Pyramid security cylinders are available in mortise, rim, key-in-lever/knob and interchangeable core type cylinders.

Pyramid Security and Pyramid High Security cylinders can be combined on the same master keying system and one key can operate both cylinder types.

How to Order:

See Pyramid catalog for complete ordering examples of cylinders ordered separately and cylinders ordered with locksets. Substitute cylinder number or quick code below for Security.

Cylinder Type	High Security(PHS)	 Security (PS)
Mortise Fixed Core	1020	1027
Mortise IC	1030	1037
Key-in-Lever/Knob	2020*	2027*
Rim Fixed Core	3020	3027
Rim IC	3030	3037
IC Core only	8020	8027

* For Schlage[®] replacements see New Product 47520 dated July 21, 2003
